

Playing with Science

Physics for Early Childhood Educators

A NEW professional development workshop available in Sydney — we come to you!

Explore exciting science concepts in a hands-on workshop offering many practical ideas for engaging young children with science. Some basic physics concepts are explored, with demonstrations and group discussions, followed by participants using a range of everyday materials to do some extraordinary science. Concepts covered include gravity, sound, and floating and sinking.

This 'Playing with Science' workshop will enable participants to:

- * Explain some physics concepts using everyday language.
- * Present intriguing science demonstrations to spark enthusiasm and start conversations about science.
- * Provide a range of hands-on activities to allow children to play with science.

Presented by Jenny Lynch, an experienced trainer with a background in science communication, physics and medical science.

This workshop is currently available in the Inner West and St George areas of Sydney.

Enquiries: Call Jenny on 0402 063 921 or email jenny@creativescience.com.au

Information correct at time of publication and subject to change without notice, 24/3/2015.
